WHY ATTEND?

The economic growth in Africa has surpassed all expectations and the rise in population will make Africa a big focus for the next 50 to 100 years. Home to 1.2 billion, Africa is projected by the UN to double to 2.4 billion by 2050. Ageing assets and insufficient capacity means that the infrastructure that were built years ago are unable to cope with the population growth. Hence, this presents a huge opportunity in Physical Asset Management, which is what the summit is about. Now in its 5th edition, come and network with senior professionals and decision makers from different parts of the world while discovering new products, technologies and solutions for your organisation.

This event provides high level networking and huge value including:

- Cultivating new business to business relationships especially with international companies followed by a cocktail at the residence of the British High Commission, Lagos
- Build rapport as you meet face to face and network with global experts
- Gain insight on how to increase profitability through best practice in Asset Management
- Full conference proceedings of the technical sessions to be made available via USB or online
- A choice of short presentations and longer workshops over both days
- Prominent keynotes with expertise in asset management

PPP

Excellent experience especially in Reliability Centred Maintenance in Asset Management

–Joel Mukollos, Warri Refining & Petrochemical Company Limited (WRPC)

A very enlightening, educating and memorable experience. I enjoyed particularly the sessions on sustainable development.

–Arc. Fatima Danjunma, Director, Upscale Consultants Ltd.

Impressed with the Enthusiasm and Commitment.

– Robert Gemmel, Corporate Maintenance Manager, SEPLAT Petroleum Development Company.

Who benefits from attending?

SPONSORSHIP OPPORTUNITIES

- By participation, sponsors are establishing themselves as leading corporate promoters of excellent service delivery, which is a direct result of good Asset Management & Maintenance.
- Association with the Institute of Asset Management (IAM) UK, the professional body for those involved in acquisition, operation and care of physical assets - especially critical infrastructure.
- Opportunity to present a paper to our audience and position yourselves as knowledge leaders.
- Panel Sessions - Be part of specific panel sessions that will discuss case studies on key industries.

Email events@assetsummit.com for sponsorship opportunities as we have different options to match your budget and expectations

“For me it was terrific to understand the problems and immense opportunity which [Nigeria/West Africa] represents. In particular the Asset Summit gave me an opportunity to meet many diverse business leaders, appreciate the depth of skills which already exist and I became aware of their exciting energy and optimism.”

-Clive Deadman, Director, 1905 Investments Limited.
